Wee Chervl is thriving We thrill at each musical

As she lies at our feet On a sterilized sheet Cutting teeth on the heel Of my shoe!

H. M. BAGGARLY, editor of books, write sheafs of copy and find time to devote several hours a day to his radio station for per-

from his "Thoughts for Thursday

Although not a psychologist, we the hearts of our readers. For inof Msappointments, of ill health, water after a long, hot walk.

There are many who prescribe remedies for these crosses which are as heavy as they are universal, The stoic says to manifest indifference toward life's crosses. Another philosophy says to pretend they don't exist. Still another says to go to a movie and get your mind off them

There are those who say "grit your teeth and bear them," and those who suggest resignation.

Without splitting theological hairs but at the same time ignor ing the historical pagan philosoanother remedy or way to deal with these problems of life. From experience we can vouch for its effectiveness. We offer it, not in corflict with the theologian's answer to the problem of suffering; to be used by both Christian and mon-Christan alike. It can be used in ecripunction with the Christian enswer that "all things work to-

yether for good . . . Certainly our time-tested remedy is not original, neither is it new. It works this way: Whenever you find yourself with a problem whatever it is, find another person with a problem and dedicate yourself to the task of alleviating his! Invariably, you'll find that his problem is a little more complicated and thorny than

FOUR own. If you feel friendless and forgotten, find a person who apparently is just that. Give that person the friendshp and attention you crave for yourself-his problem then is solved, and in the process, your own at least has been forgotten.

"The church has no need for more members who believe we should leave well

enough alone."

DELEGATES TO GIRLS' AND BOYS' STATE at Austin next month from Hamlin are the four Hamlin High School juniors above. Selected by school authorities for their good citizenship, they are being sent to the demonstration in government at the state capital by the Hamlin Rotary and Lions Clubs in cooperation with the Sylvester posts of American Legion and Legion Auxiliary. Pictured above (top row, left to right) are: Peggy Dodd and Patricia Bigham; bottom row-Victor Criswell and Durwood Boyd.

## EDUCATION USUALLY SETS THE PAY STANDARD School commencement time in the Hamlin verritory has rolled around again-with new

tharacters playing the principal roles from all the previous commencement times. With the new cast of characters, the setting is new-times have changed, the courses of

study are altered, school equipment has been modernzied, teaching techniques are different, new teachers are on the job-all coming as part of this changing world.

But basically, getting an education is the eventual goal of the schools and the students. The students of the Hamlin area are blessed with some of the finest educational facilities in the land-a far cry from most of those of preceding generations. However, the parents and grandparents of today's graduates can still parade their hardships and recitation of lack of facilities with "when I was a boy" nad "now, when I was a girl . . .

As facilities for teaching are expanded, the necessity for getting an education becomes more and more imperative for the youngsters of today. Statistics prove over and over that the young man or young woman without an education is almost without opportunity in the better job-getting field. Aside from the ability | superiors and their families.

to make a good living involved with an education, the person with a well rounded education is better prepared to live a more where he has been doing missionprofitable and enjoyable life.

Fifty Hamlin High School graduates will walk across the stage to receive diplomas Thursday evening. Ten young people have completed their work at McCaulley High School. Eight colored boys and girls will be awarded sheep-skins as demonstrations of their satisfactorily completing the course of study at DePriest Colored School in Hamlin.

These young people are better prepared to live and to make a living than those of their same age who dropped out of school before they reached the zenith of graduation. They face the world with a basic knowledge of correct speech, a knowledge of history and science, the ability to use business machines, with vocational training, homemaking training, musical faculties developed and other technical experience. Furthermore, their classroom training has left them better equipped to cooperate and share with others, play and work fairly, and be good citizens generally. They have respect for law and order, their

#### **Avoid Labor Domination** Women and Fashions

While we are no fashion expert, we have a 29-cent word of advice for the ladies. No doubt few of them will follow our advice, and perhaps rightly so, but nevertheless we will offer it-even if only or posterity.

For many decades now the women of this ers by the lashion designers, who change the styles of clothes as often as they can-usually each year-to make milady's wardrobe suddenly out-of-date. The idea is that if the wardrobe suddenly becomes dated, or out of style, this will necessitate the buying of new dresses, with new hemlines, new designs, etc.

This greatly stimulates the apparel industry, and causes some ridiculous styles to appear periodically. The sack dresses for example, are absurd for a woman with a good figure, and they were introduced to make women buy new clothes.

Our advice to all women is to wear the type of clothes that do the most for them, and that goes for dresses shoes, hats, etc. It is difficult, of course, to find these clothes in many towns and cities. However, if a little perseverance is used, one can usually find the basic styles, which have been good for many years, and can stick with them to some

Only is some resistance is shown to the designing units, and the fads which bilk the American population out of billions of dollars annually, will the racketeering in this field be curbed.

# Nuggets of Thought

Ideas must work through the brains and the arms of good and brave men, or they are no better than dreams.—Emerson.

It is not every question that deserves an answer.-Syrus.

Let is be impressed upon your minds, let it be instilled into your children, that the liberty of the press is the palladium of all the civil, political and religious rights.—Junius.

The press is the foe of rhetoric, but the friend of reason.—Caleb C. Colton.

All I know is what I see in the papers. Will Rogers.

We live under a government of men and morning newspapers.—Wendell Phillips. The press is not only free, it is powerful.-

An ounce of vanity spoils a hundred weight of merit.—George Herbert.

No man sympathizes with the sorrows of vanity.-Samuel Johnson.

# THIRTY YEARS AGO.

# Chevy pickup pulls through "bottomless" pastures to keep stock fed!

At the Hall Bros. Dairy Farm, Montgomery, Ala., they say this 4-wheel drive Chevy will go anywhere to keep stock fed-even through hub-deep muck that makes it a fight all the way. And yet after a full year of it-no mechanical trouble of any kind!

That Chevy pickup may not win any beauty awards (till it's cleaned up). But it's sure walking off with the top prize for dependability. And that's standard Chevrolet procedure. Put a Chevy truck to work and it keeps on working until you say quit. Not before. We aren't claiming that every Chevrolet truck is turning out to be a miracle-worker and averaging 100,000 miles before a valve job. (Even though some are going 150,000!) You're sure to find, however, that you can't buy more truck dependability at any price. And that's borne out by the fact that more truck owners put their faith, and their payloads, in Chevrolets than in any other make.

Take your load and schedule figures to your Chevrolet dealer. He'll specify the best way to handle both and save in the bargain.

No job's too tough for a Chevrolet truck!

Now's the time-see your local authorized Chevrolet dealer for a real truck buy!

# New Book on "Sewing for Fun" Helps Little Girls Gain Sewing Principles

cording to a new book, "Sewing of the various projects. Is Fun," written especially for

The new book, lavishly illustrated tells how to make all kinds of simple things, from pin-cushions to eye-glass covers, and from pot basic steps in both hand and machine sewing, together with detailed instructions for various

Mothers and teachers will appreciate a chapter called "Sew Safely," which emphasizes such points as keeping pins and needles in pin-cushions rather than scat-

The book tells what are the essentials for an efficient sewing seam, how to sew on buttons, and Clothing Set at HHS

The individual sewing projects the dege of a gelatin mold before in the book should provide many

Little girls love to sew, if they | Each chapter is illustrated, are taught the proper steps, ac- showing step-by-step construction

> Also given are patterns for the suggested items, all of which may be made by basic hand stitches.

A special section on machine sewing explains the various parts of the machine and gives directions for practice stitching. A beginner project suggested is a ruffled lamp-shade cover.

In addition to gift items, the small seamstress may make accessories for herself, such as a ribbon bow belt, a collar or a little reversible cap.

After completing the projects in the book the child should know enough about sewing to tackle a simple dress made from a standard pattern.

## Summer Classes in For Interested Group

Adult classes in clothing tion and construction are to be conducted in the homemaking departments of Hamlin High School, beginning Monday, June 1, at 2:00 p. m., according to Mrs. Camille Simmons, homemaking instructor,

Two special items to be included in the classes are use of an automatic sewing machine, and the making of a tailored belt.

Any adult or out-of-school youth is eligible to attend the classes, which are free to the public. Other subjects would be offered if there is a demand.

If you are interested, meet Mrs. Camille Simmons in the high school Monday, June 1, at 2:00

#### Demonstration Agent To Attend Workshop

Mary Y. Newberry, Jones County home demonstration agent, will be attending a semi-tailoring workshop in Vernon the week of May 25 to 29. The workshop will be conducted by Rheba M. Boyles. clothing specialist from College Station. Other agents of District III will be attending the work shop also.

The agents will be taught the newest methods in clothing construction applicable to the semitailored garments, and the agents will use the instruction received in their own county program of

#### Mothers Honored at Tea by Yo-Te-Ha Unit Of Camp Fire Girls Last Friday the Zune Camp Fire girls held a Mother's Day tea at the Yo-Te-Ha Camp Fire hut in West Hamlin. The mothers of members were special guests.

Refreshments were served to the attendants and while the group was eating Ann Johnson, Anna Adams, Joyce Smith, Judy Fitzgerald and Joyce Smith played the piano, Caron Knabel, Lenona Brown, Ginger Kidd, Kay McCoy, Kathleen Hallmark, Teresa Josey and Nancy Carlile, gave a short

Five-year pins were received by Kay McCoy, Kathleen Hallmark, Judy Fitzgerald, Ann Johnson and

Soon the Zune girls are scheduled to have a camp at the Robert Johnson farm, south of town. Their schedule will include hiking will cook their own meals. Some of the girls will use this outing to attain their firemakers rank

# Livery Stable Days

A new Naylor Book was released May 15. "Livery Stable Days" is an authentic historical account of the days when the Livery Stable was one of the hubs of social activity in practically every American community. The book makes mention of

The arrival of the automobile erased the livery stable from the picture, but here is the account of those days written by a man who owned and operated these establishments in Texas. Upton Barnard, author of "Jake Bell, Range Rider," also published by The Naylor Company, draws on personal ex-

This is another place Plymouth proves its...

# IN EGONOMY

Plymouth, traditional economy champ, again won its class in the Mobilgas Economy Run . . . won for the third straight year! In this recognized competitive test for economy, a Piymouth V-3 averaged 21.15 miles per gallon. Plymouth's proven high gas mileage, initial low purchase price. maintenance cost and good resale value all add up to the Big Difference in economy.

PLYMOUTH DELIVERS BIG DIFFERENCE IN PERFORMANCE

But you don't have to sacrifice performance to enjoy Plymouth's top economy. The Fury V-800 engine that powered the Plymouth to its Mobilgas victory is the biggest standard V-8 in Plymouth's field. Its 230 horsepower packs plenty of power.

#### BIG DIFFERENCE IN QUALITY

We sincerely believe that the '59 Plymouth is the finest car Plymouth has ever built. Check every inch of this car. See the difference great engineering makes.

TAKE A "TWO-MILE TRY-OUT" NOW!

Get behind the wheel of a Plymouth and really feel Plymouth's Big Difference. Take your "Try-Out" soon.

To be fully appreciated, must be driven.

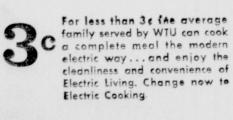

BIG DIFFERENCE IN RIDE

Plymouth's famous Torsion-Aire Ride is the most comfortable ride on the road. It acts as a built-in roadleveller-it virtually eliminates roll or sway on turns -front end dive on stops. And it's yours at no extra cost on Plymouth.

#### BUT YOU DON'T PAY FOR THE DIFFERENCE

The top-selling, low-price cars are all priced about the same but only PLYMOUTH gives you the Big Differ. ence for your money.

# Dial Telephones to Speed Calls

When dial telephones come to Hamlin, I think you folks will be amazed at the speed that your calls will go through. Not only that—dial telephones in Hamlin mean you will have the most up-to-date and modern telephone service that is available anywhere in the world.

Dial telephones mean faster Long Distance service for you, too, since Long Distance operators in distant cities will be able to dial direct to your telephone without going through another switchboard or contacting another Long Distance operator. A new dial system in Hamlin also means we've reached the first milestone in a program which will eventually enable you to dial your own Long Distance calls to any telephone in the United States. All of us at the telephone company think you will like dial telephone service and that you'll enjoy the fast, convenient telephone service it will provide.

# Make It a "Holiday" Week-End With a Long Distance Call

Last year, many of us had a three-day week-end because Decoration Day fell on Friday, and it'll be the same way next year when it comes on Monday. But this year the calendar threw us a little courve and Decoration Day lands on Saturday. This cuts out the chance for a three-day holiday, which means there's not enough time for an out-of-town trip to see friends

Since a holiday is a family get-together day, several of my friends have told me they still plan to "get together" with a long distance call over the week-end.

It's the next best thing to visiting in person," one fellow told me, "and we can make quite a few out-of-town calls for the cost of traveling over the week-end."

It makes sense to me, and I hope many of you will perk up your Decoration Day week-end here in Hamlin with a long distance call to friends or family.

As you know, rates are lower after 6:00 p. m. week days and all day Sunday. And when you call, call station-to-station. That way you'll be able to make three calls for about the price of two. That's a real saving!

#### It's Fun to Phone!

How often do we use the phone "just for the fun of it?" Have you ever stopped to think how many times a telephone call has been the beginning of a lasting friendship, or a pleasant evening with neighbors?

People often tell me of calls they made "just to visit." You've probably done the same. Chances are good you'll do it again.

Why? That's easy-because it's fun to phone!

Call by number. It's twice as fast. SOUTHWESTERN BELL TELEPHONE COMPA

## Bright Spots Seen In Wheat Prospect For North Texas

Bright spots in the 1959 winter wheat crop in Texas are in the Texas Panhandle north of the Canadian River, in North Texas, and fields which have been irrigated, declares the monthly crop condition report of the Santa Fe Railway, just released. The report continues:

Much of the non-irrigated wheat south of the Canadian River and in the Low Rolling Plains (including the Hamlin section) show the effects of the prolonged period without effective moisture the last half of 1958 and in early

Moisture in early April came too late to improve prospects in many areas. Leaf rust, green bugs and grain mites have also

Planting of cotton is progressing daily with perhaps as much as one-half of the intended acreage area of the state. Most of the corn and sorghum acreage, except on the High Plains, has been seeded where moisture is adequate. Planting will continue for several months until the allotted acreage has been seeded.

We have the resources to meet this challenge. Doing the job is

up to us. Together, working at every evel, I believe we can get it done.

# in "Warlock," Set At Ferguson Soon

The ancient adage about "You never know" could be perfectly applied to Twentieth Century-Richard Widmark, Henry Fonda, and Dolores Michaels star, playing Sunday , Monday and Tuesday at the Ferguson Theater. Such as:

Donald "Red" Barry-like Henry "Red" Sanders, the late and great Ryder.'

## Girls of Present Generation Vital To World's Work

"Girls of this generation are destned for a very important role in the world of work," says Brunswick A. Bagdon, Southern regional director of the U.S. Department of Labor's bureau of labor statistics, in appropriate a new publi-

"We anticipate there will be 11,000,000 more workers in 1965 than there were 10 years earlier; the more than one-half of these additional workers will be women; and that 1,500,000 will be girls and young women under 25 years of age. Of these young women, the majority will be high school gradun\*

for a few years at least, after completing her schooling. This is true whether or not she plans to marry soon after graduation-the young bride of today is likely to continue working for a while if family responsibilities allow."

"Future Jobs for High School Girls," a recent bulletin of the women's bureau contains a wealth of useful information for high school girls, their parents, teachers and counselors. This publication has been written to help high school girls in their planning for the future. In the job guide section, informatiton is given on a variety of occupations that can be entered by young women high school graduates. The nature of the work, job possibilities, qualifications and training needed, and opportunities for advancement in occupations which range from beauty operator to radio and television technicians are discussed.

Among jobs to which a high school diploma opens the door are those of general clerical worker. telephone operator, department store saleswoman, grocery checker and dental assistant or airline stewardess.

For some other occupations, a high school graduate will need additional training, as well as work experience, in order to advance. These occupations include such technical and professional jobs as nursing, medical laboratory work and engineering aide or draftsman -- also top secretarial jobs and many specialized jobs.

Training for jobs which require more than a high school diploma can be obtained in various waysthrough nformal training on the job (bank teller); courses at a technical school or university (draftsman); formal apprenticeship (optical technician); and attendance at a business college (secretary) or an approved hospital school (nurse).

for obtaining job experience and 40 cents a copy.

#### TOO GOOD AT IT.

The young salesman was looking very depressed on his second day on the new job.

"Come, come!" said the sales manager. "Don't look so down-It's difficult at first but you'll soon get onto it. With a little experience vou'll get along all right."

"It isn't that," said the man. "When I got home last night I practiced my sales talk on my wife, and now I've got to buy her a vacuum cleaner!"

#### HELP ON THE SIDE.

The year-old brother had a habit of getting into his threeyear-old sister's play things, much to her dismay. One day she found most of her favorite toys scattered all over her room. She immediately began crying, scolding and fussing at the baby.

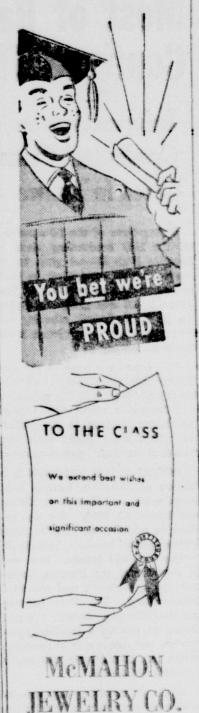

Her mother tried to console her by saying, "Remember, you must be nice to Steve because God sent him to us from heaven."

Without hesitation, she firmly replied, "I don't think he was sent. I think he was pushed!"

# By DePriest Students

Good showing was made by students of DePriest Colored School of Hamlin at the recent state Interscholastic League meet at Prairie View College.

The vocal octet, composed of Juanita Douglas, Bertha Douglas, Bertie Brown, Earldean Davis, Fred Thompson, James Pinkard, Hardy Nabors and Gene Smith, placed first. Other winners included: William Henry Brown, senior declaiming; Jack Breedlove junior declaiming; Sarah Offiver, plano solo; Jesse Gilbert, male solo.

High he lettered for one year each in baseball and boxing. He lans a Me's work in drafting and will major in drafting when he goes to Fort Worth Drafting Coffege.

Traffic accidents on U.S. highways during 1958 caused more than 2,825,000 injuries although deaths decreased five per cent, according to statistics compiled by the Travelers Insurance Com-

The record number of injuries represented a 12 per cent increase during the year over the 1957 totals-more than twice the percentage increase of a year ago.

Highway deaths for the year totaled 36,700. Travelers estimated that for every highway fatality there were 77 injuries.

In its annual traffic safety booklet, "The Luckless Legion," published annually since 1931 except for the war years, the Travelrs Insurance Companies estimated that more than 60,000,000 Americans have been killed or injured since the advent of the automobile.

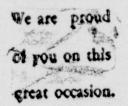

During the past year drivers under 25 were involved in 27.1 per cent of all fatal accidents and more than 20 per cent of non-fatal crashes, the report pointed out. This record was compiled by a group which constitutes at best only 14 per cent of all licensed drivers, the report emphasized.

Passenger cars were involved in almost 80 per cent of the fatal accidents and 87 per cent of the non-fatal accidents. The Travelers report estimated that, although total mileage traveled by commercial vehicles is almost that of passenger cars, private cars become involved in four-fifths of the fatal crashes and seven-eighths of the non-fatal accidents.

# Fire Safety Practices Good in Hamlin Another Graduate of er, Linda Farmer, Pat Green, Velta Schools, Says Josey After Inspections

Fire safety practices in the fire extinguisher hung prominentfive Hamlin schools generally are good, declared Fire Chief James Josey of the Hamlin Volunteer Fire Department following a recent inspection of the facilities.

Josey made several recommendations to Superintendent of Schools C. F. Cook and the board of education in improving some fire hazards and Cook advises that steps are being taken by the schools to carry out suggestions of improvement

Josey's general report follows: Thank you for your assistance and interest in making a fire safety inspection of all Hamlin schools recently. I feel we are fortunate that planning ahead through the years has given us such fine and safe buildings. Facilities are we kept, with few fire hazards, especially so considering the number of buildings and people involved.

List below are the few suggested changes for your consideration:

High School Buildings-Boiler room door, metal or metal covered with self-closing mechanism; Boiler room ceiling, sealed with fire resistant material; boiler room

# **DePriest Makes Good**

Another graduate of DePriest Colored School of Hamlin has been making good in her college career. Mid-term grades of Shirley Jones, 1958 graduate of De-Priest, have just been received from Texas College at Tyler this week. The grades are: Home economics, A-minus; science, A; health, B-minus; phychology, Bminus; and public music, C.

Shirley was active scholastically and in basketball while attending DePriest. She is the daughter of Mr. and Mrs. S. B. Jones of Rotan. Jones is bus driver from Rotan to Hamlin.

## Supt. Cook Points To Good Work by Schools of Hamlin

This school year has passed very quickly and is almost history, reminds Superintendent of Schools C. F. Cook this week as he presents a summary of the year's work. His release continues:

We have students and parents who are happy and well pleased; likewise we have those who are disappointed. We hope with this happiness and disappointment that you are pleased with the instruction and administration of your

We know that we have made many fine contributions as well as errors this year,, but we want to assure you that we have at all times put the child first in all matters. We think we have a fine school system with a great student body. We also think that our children have wonderful dads and mothers, because without the latter our school and community could not and would not be the type to have a good school and community.

The cooperation of the students, parents and many other people has been wonderful. This is always necessary in order that we all may be happy and progressive. The teachers and administration say thanks to everyone who has made our jobs pleasant.

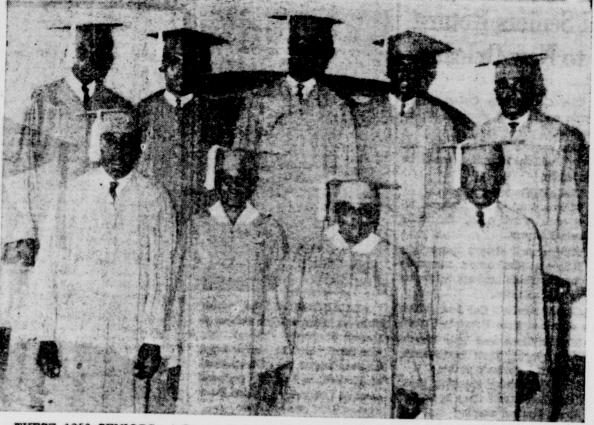

Superintendent Cook expresses his appreciation to the students, teachers, principals, school board members and others for being so considerate and helpful in planning and meeting the problems of this school year. He said this has been a most enjoyable year. With the same interest and cooperation next year, we will have another good school year.

Cook states that any changes in our school program or policies will be given to The Hanf in Herald for publication.

#### NOT LONG ENOUGH.

Peewit - "When that elevator fell with you I suppose all of your sins flashed before your eyes;"

Poette-"Well, not all of them-

THESE 1959 SENIORS of Oscar DePriest High School will receive their diplomas of graduation in commencement exercises this (Thursday) evening at 8:00 o'clock in the school auditorium. They are: Front row (left to right)-William Henry Brown, Eula Mae Davis, Gertrude Marie Griffin and Speedy Spartan Baldwin; back row (left to right)-Johnny Travis Turner, Aubrey Gene Smith Jr., Fred Thompson Jr., Jesse Ronald Gilbert and Milton James Laury. Class colors are gold and purple, and class flower is the black orchid.

#### Myra Siburt and Tommy Bonds Named HHS Citizens of Year

Myra Siburt and Tommy Bonds have been selected as Citizens of the Year at Hamlin High School by the National Honor Society. Criteria for selection were character, general attitude and participation in the affairs of the

Myra, a sophomore student, takes an active part in class, school and church activities. This year she has written the devotional column for the weekly school paper. She is active in the Labrary Club and the FHA. She is the daughter of Mr. and Mrs. Austin Siburt

Tommy, the son of Mr. and Mrs. L. C. Bonds, is a junior with a willingness to work at any worthwhile activity of his school and church. Completely dependable, Tommy is popular with students

Hamlin, Texas

#### HAD A GRUDGE.

A scientist invented a serum to bring inanimate objects back to life. Secretly be tried it out on the statue of a general in a park. Sure enough, the general gave a quiver and climbed down from the pedestal. The scientist was overloved.

"Tell me, general," he said, "what's the first thing you're going to do in your new life?"

"That's easy!" rasped the general, ripping a gun from his holster. "I'm going to shoot several thousand of these damed pigeons!"

#### LISTENS TO LECTURES.

The minister asked for anyone who knew a truly perfect person to stand up. After a long pause a meek looking fellow in the back stood up.

"Do you really know a perfect person?" the minister asked.

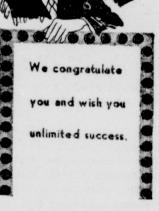

"Yes, sir, I do," answered the little man.

"Won't you please tell the congregation who this rare perfect person is?" pursued the preacher. "Yes, sir. It was my wife's first

your new ideas.

SCENE FOR GRADUATION EXERCISES of the nine seniors of DePriest Colored School will be the auditorium of the Hamlin Colored School (shown above). The school houses facilities for 12 grades of affiliated study, including band and other curricular activities. A new separate building houses homemaking department. Eight teachers, all holding degrees, direct the teaching duties. E. S. Morgan, who holds a master's degree, is principal.

#### Primary School Will Close Very Successful By HHS Library Club Used by Typing Class School Term Friday

Hamlin Primary School closes a very successful school term on Friday afternoon at 2:40, reports Mrs. Fred Smith, principal,

Final reports will be given to the children who have returned all books or paid for books lost and have all charged meals paid. Annual achievement tests were given in all three grades. Mental ability tests were given for the first titme to the third grade pupils this year, Mrs. Smith reports.

"The Primary School faculty wishes to express its appreciation to Superintendent Cook and to the patrons of the school for their splendid cooperation; to the Parent-Teacher Association for help with registration in September, Christmas program, dental check, pre-school visitation day, preschool clinic, and for the gift of science films; to the telephone operators who were so patient with the numerous calls; to the lunchroom personnel; to the bus drivers and all others who helped make the school term a successful one," declares Mrs. Smith.

# New Officers Elected On-the-Job Problems

Members of the Library Club of Hamlin High School met at 5:30 p. m. Monday for the purpose of electing new oficers for the coming year of 1959-60.

The following officers were named: Iona Seaton, prseident; Londa Cavitt, vice president; Montie Wade, secretary; Richard Winegeart, treasurer; Myra Siburt, reporter; Phyllis Hollis, par-Jiamentarian; Lana C. Lancaster, historian; Peggy Dodd, song leader; and Linda Bingham, pianist.

Barbara Butler has served as president of the Library Club the present year, and has done an excellent job, declares Mrs. Zelma Hulse, the club's sponsor.

See The Herald for paper chips

Typing II class at Hamlin High School has just completed a practicetice set that included 40 problems that would be typical of onthe-job typing, declares Dora D. Mitchell, teacher of commercial subjects. The projects included typing an application, making out a payroll, writing letters, typing invoices making a trip itinerary,

Those in the class are Pat Branscum, Barbara Butler, Wyvonne Conner, Billie Dominey, Charles Green, Jo Ann Hallum, Louise Lakey, Phillip Miller, Melba Osbourn, Gloria Rodgers, Glenda Williams, Judy Telchelman and Glenda Wright,

## More Than 40 Hamlin High Students Take Mtrit Scholarship Test Exams

Im High School recently took the national merit scholarship qualifying test, B. V. Newberry, principal announced this week.

The test is the first step in competition for merit scholarships provided by some 90 corporations, foundations, professional societies and individuals, as well as by the National Merit Scholarship Corporation itself. Some \$15,000,000 in merit scholarships has been awarded in the first four years of the program.

The number of scholarships awarded in any year depends upon the extent of sponsor participation. The basic continuing program is for \$1,000,000 a year (for 10 annual programs). In addition, sponsor participation this year is expected to add about \$2,000,000 more in sponsored merit scholarships. It is estimated that various outside-the-program sponsors will increase the present amounts offered to high scoring students by several million dollars.

The national merit scholarship qualifying test is a three-hour

#### Shorthand Classes At HHS Make Good Record in Speed Tests

The 1958-59 shorthand class in Hamlin High School has reached the 60-word-per-minute bracket, with a few reaching the 80-yardper-minute category, reports Dora Mitchell, commercial subjects instructor.

Eddie Gabriel and Judy Teichelman represented HHS in the district interscholastic contests, placing fourth and sixth. Two girls from Stamford placed first and

Class members are: Pat Branscum, Wyvonne Conner, Elizabeth Daniell, Billie Diminey, Eddie Gabriel Jo An Hallum, Libby Johnson, Peggy Killion, Louise Lakey, Betty Maberry, Melba Osbourn, Judy Parker, Ginger Rabjohn, Gloria Rodgers., Gerry Rumfield, Judy Teichelman, Glenda Williams and Glenda Wright.

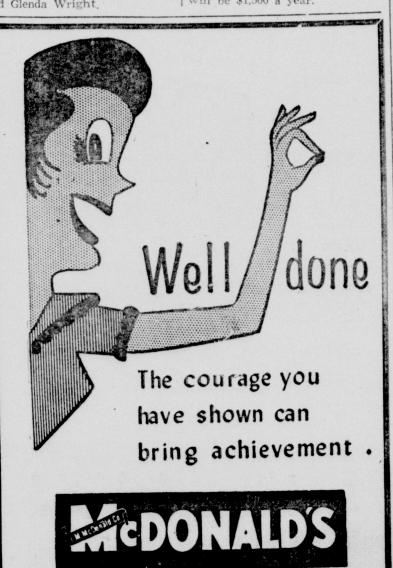

More than 40 students at Ham- measure of educational development and college aptitude, Emphasis is on broad intellectual skills, and on understanding and ability to use what has been learned rather than on sheer knowledge of facts.

> Some 10,000 semi-finalists-the highest scorers in each state will be named early next fall. Each semi-finalist will take a second examination. Those who repeat their high performance on the second examination will become finalists. Further evaluation of their grades, citizenship and extra curricular achievements will follow, and the winners will be announced in the spring of 1960.

The test results will be reported to all participating schools before the beginning of the senior year, in time for use by seniors and their class advisors. The scores may also be used in many high schools to help students make decisions about college and the most appropriate courses to major Many students throughout the country who do not expect to win have registered for the test in order to learn more about their individual strengths and weak-

Dr. John M. Stalnaker, president of the National Merit Scholarship Corporation, recently cautioned that there are many reasons why test results cannot be used to evaluate school performance. The distribution of the population throughout the state, the size of the school, the native intelligence of its top students, the percentage of students taking the test, the nature of the community where the school is located, the purpose of the school, and many other factors have nothing to do with the total effectiveness of the school can influence its number of finalists.

Each merit scholarship carries a stipend based on the need of each individual winner, and is renewable annually without further competitive examination. The average stipend in past years has been \$700 per year. The minimum award in the 1959-60 program will be \$100 a year and a maximum will be \$1,500 a year.
